

Summary Profiles (snapshot profiles for areas with small populations)

Summary snapshot profiles present a sub-set of socio-demographic information and are designed for areas which have too small a population for detailed profiling.

The Redland City is provided as a snapshot to enable comparisons with other areas.

Please note that these are summary tables that include selected statistics drawn from the 2006 Census. Therefore the sum of these selected components may not equal the totals given in these tables.

Lamb Island snapshot profile, 2006
