

Operational Plan
2016 – 2017

Operational Plan 2016 - 2017

What is an operational plan?

Under the *Local Government Act 2009*, Council must adopt an operational plan each financial year. This document sets out the significant activities that Council plans to undertake to enable delivery of the Corporate Plan 2015 - 2020 and the Redlands 2030 Community Plan. Council may amend its Operational Plan at any time by resolution. Council must undertake its responsibilities in a way consistent with its annual operational plan. Council must monitor progress against its operational plan and present updates to Council at least quarterly.

The *Local Government Regulation 2012* states that the annual operational plan must:

- be consistent with its annual budget,
- state how Council will progress implementation of the Corporate Plan,
- manage operational risks, and
- include an annual performance plan for each commercial business unit of Council.

Strategic alignment

Redland City Council's strategic objectives are articulated in the Redlands 2030 Community Plan, Corporate Plan 2015 – 2020 and in its annual operational plans.

The Redlands 2030 Community Plan sets out Council's long term vision and outlines eight vision outcomes for Redlands. The Corporate Plan 2015 - 2020 identifies priorities, or 2020 outcomes, in the medium term that are considered to be transformational for the city. Council's Operational Plan 2016 - 2017 specifies the significant activities that Council plans to undertake in 2016 - 2017 to progress each of the 2020 outcomes identified in the Corporate Plan 2015 - 2020.

The Operational Plan 2016 - 2017 is a key component of Council's annual plan that aims to deliver transformational outcomes for the city by 2020. The significant activities outlined in the Operational Plan 2016 - 2017 are funded from the annual budget. In addition to the achievement of the strategic 2020 outcomes, Council continues to deliver a range of community and customer services. The Operational Plan is not intended to include every activity that Council undertakes.

Managing risk

Council has a comprehensive Enterprise Risk Management Framework which sets out how Council manages its risks. Council maintains risk registers for strategic, operational and activity level risks. The following registers are reviewed and updated before being approved by Council's Operational Risk Management Committee:

- Strategic (annually)
- Operational (quarterly)
- Activity (bi-annually)

When developing the Operational Plan, managers are asked to consider what operational risks would be likely to impact their project and activities. As a result, a broad range of operational risks were incorporated in the Operational Plan 2016 - 2017. Examples of these risks are as follows:

- Ineffective community engagement process
- Inadequate project management
- Ineffective recruitment, selection and retention strategies
- Ineffective or inadequate asset management
- Failure of assets (both above and below ground)
- Failure to maintain marine infrastructure/canals to expected levels of service
- Ineffective strategic communications and marketing
- Inadequate local laws
- Ineffective policy advice
- Ineffective management capability and performance management
- Inconsistent and/or inaccurate information to customer due to error or out of date information
- Ineffective workplace health and safety management

Council's commercial business units

The *Local Government Regulation 2012* requires Council to include an annual performance plan for each commercial business unit. Council operates two commercial business units.

Redland Water is responsible for water distribution, wastewater collection and treatment (including tradewaste) in Redland City. Redland Water is committed to delivering high quality water safely and reliably to Redland City. At the time of the Operational Plan 2016 - 2017 being considered for adoption, the annual performance plan for 2016 - 2017 was not finalised. This will be available on Council's website after it has been approved by Council.

RedWaste is Redland City Council's waste management unit and is responsible for the management, collection and disposal of waste generated within the city. At the time of the Operational Plan 2016 - 2017 being considered for adoption, the annual performance plan for 2016 - 2017 was not finalised. This will be available on Council's website after it has been approved by Council.

Monitoring implementation of this plan

Progress on the Operational Plan 2016 - 2017 will be monitored. Reports on the progress of implementing the Operational Plan 2016 - 2017 will be presented to Council on a quarterly basis.
