

Concealed Water Leak Application

Eligibility Criteria

To be eligible for a remission, the below criteria must be met and ticked as confirmation of your understanding of the policy (incomplete applications will not be accepted):

- You are a residential, not-for-profit or small customer as defined in the [Revenue Statement 2021-2022](#).
- You have attached proof of a plumbers invoice or verified plumbers report stating there was a concealed leak.
- You have recorded two meter readings taken two weeks apart after the leak has been repaired.
- You must lodge this application less than five (5) months from the leak repair date.
- Unless this application is to supersede a previous remission, you have not received a financial adjustment on this property due to a concealed water leak within the last three (3) years (taken from leak repair date to leak repair date).
- The leak has been repaired within 30 days of identification or notification of higher than usual water use.

Declaration

I have read and understand the Council's Concealed Leak policy as outlined in the [Revenue Statement](#) available on the Council website.

I understand that I will not receive a remission on the State Bulk water consumption charge and I will only receive 80% of the Distribution and Retail water consumption charge on the amount of water loss (100% for eligible pensioners).

I understand that when the remission is calculated and is less than \$35.00 no remission will be applied (excluding eligible pensioners, where the minimum cap is \$25.00).

I understand that any eligible remission that I receive will be applied as a credit on my next rates notice.
