Declaration

I/we declare that:

- The information provided in this application is true and correct; and
- I/we agree with all of the terms and conditions.

Applicant's Signature Date

Terms and Conditions

- All new water services will be installed to within 500mm of the LHS or RHS Boundary.
- Survey pegs must be installed before the application can proceed.
- Water service and water meter installations are subject to the Plumbing and Drainage Act 2002, the Water Supply (*Safety and Reliability*) Act 2008 and the relevant Redland City Council policies, including standard drawings W-RSC-3 and W-RSC-4.
- Applications in respect of class 2 to 9 buildings and group housing must be submitted with a plan of the hydraulic reticulation system showing the exact location of service and meter.
- Cultural heritage assessments may be undertaken for the proposed work. If the work is found to be of high risk, an additional charge may be applied to manage the cultural heritage risk. If your property is deemed to be requiring an assessment, this cost will be added to the quote.
- Quotes are valid for 12 weeks and all fees must be received in full prior to scheduling works.
- For applications that lapse or are withdrawn, the quote preparation fee is non-refundable and a new application will be required.
- Council reserves the right to vary the installation location depending on site condition.
- The owner grants Council permission to enter the property and undertake site inspections to complete requested works as necessary.
- Council may enter the land concerned to effect any necessary alterations or repairs to the water service or water meter.
- Council may shut off the supply of water for such period as deemed necessary for repairs, alterations or additions to the water supply system. Prior notice will be provided wherever possible.
- For meter relocations, the internal pipework will be temporarily reconnected (where possible) to ensure continuity of supply and may not comply with relevant standards. It is recommended that a licenced plumber inspect and rectify any internal pipework altered during the water meter relocation as soon as possible.
