Glare Shields

Excessive glare caused by street lights may be lessened by the installation of a glare shield on the affected lights. Refer to *Streetlight Policy - POL-2350*

Where light from a streetlight is causing excessive nuisance to the resident, then a request for a shield can be made to Council. This will require an assessment of the light and surrounding area with consideration given to the general standard of lighting in the area, traffic safety and needs of pedestrians.

As the majority of lights which generate glare complaints are street lights owned by Energex Council must, in these cases, refer the investigation to Energex for their determination.

Should Energex determine that they are able to assist with the enquiry and depending on the type of glare shield to be fitted, Energex will charge a fee to you for the installation. This charge could be between $165.00 to over $2000.00. It is Council's current policy to share 50% of Energex's cost of a glare solution with you.

Please note that:

- The type of glare shield required will be determined by the outcome of the investigation;
- The Energex charge is in addition to the application charge and all prices are inclusive of GST;
- Energex and Redland City Council provide no guarantee that the installation of a shield or aeroscreen fitting will completely solve your glare problem;
- It may take several months for the investigation and suitable glare shield to be fitted

Fees & Charges

Application Fee **$79.40**

Office Use Only

Glare Shield CRM no.
