

Wastewater – Connection, Alteration & Disconnection 2021/2022

Important Information

The State Government requires all South East Queensland water and sewerage providers to comply with a uniform **SEQ Design and Construction Code** for the design and construction of new water supply and sewerage assets. In order to complete the requested works to the required standards, Redland City Council will need to assess your application.

For all New Developments and Commercial Properties, all water connection applications for **MUST** be submitted using council's [online form](#).

Terms and Conditions

- Council reserves the right to vary the installation location depending on the site condition.
- The owner grants Council permission to enter the property and undertake site inspections to complete requested works as necessary.
- Council may enter the land concerned to effect any necessary alterations or repairs to the wastewater service and/or any relevant manholes or inspection points.
- Survey pegs must be installed before the application can proceed.
- Quotes are valid for 12 weeks and all fees must be received in full prior to scheduling works.
- Cultural heritage assessments may be undertaken for the proposed work. If the work is found to be of high risk, an additional charge may be applied to manage the cultural heritage risk. If your property is deemed to be requiring an assessment, this cost will be added to the quote.
- For applications that lapse or are withdrawn, the quote preparation fee is non-refundable and a new application will be required.
