

Community Grants Program – Round 1 2017/18 – Conservation Grants

Grant ID	Organisation Name	Project Title	Project Description	Approval Amount
SUCCESSFUL APPLCIATIONS				
CS-181-003	Bethanie Warren	Possum Rehabilitation	To purchase a small and large outdoor aviary and essential equipment to assist in the rehabilitation of orphaned, injured and sick possums and to allow soft release of the animals into Redland Bay where multiple housing developments have removed much of the native population.	\$815.00
CS-181-004	Desley Cook	Wildlife Rehabilitation	Rescue, transport, care and rehabilitation of Australian Wildlife in Redland Area. Purchase of a thermal life support cabinet, cage and food medication and equipment, to care for younger animals in a controlled stable temperature and humidity controlled environment to enable more healthy wildlife animals to be rehabilitated.	\$500.00
CS-181-006	Louise Duff	Revive Our Wetlands in the Redlands	The Redland's LGA is a natural wonderland of wetlands and waterways flowing into the internationally significant Moreton Bay Ramsar Site. CVA will partner with Egret Colony Wetlands Bushcare Group to address urban impacts at Egret Colony Wetlands. We will increase volunteer engagement at the site to treat invasive weeds, plant local natives and remove rubbish. The project will improve the condition, resilience and function of the wetland habitat.	\$8,600.00
Total:				\$9,915.00
