

## Community Grants Program – Round 1 2017/18 – Capital Infrastructure

Grant ID	Organisation Name	Project Title	Project Description	Approval Amount
<b>SUCCESSFUL APPLICATIONS</b>				
CAP-181-002	Macleay Island Bowls Club Inc.	Upgrade our natural turf green to an artificial surface.	Our project is to replace our Turf Green with an Artificial Turf. This will include sub surface foundations together with a concrete path around the perimeter of the green. This will allow our facility (and specifically our green) to be (technically) used every day of the year pending weather conditions where it is currently out of action for a minimum 4-6 weeks for annual maintenance.	\$50,000.00
CAP-181-008	YMCA Victoria Point	Gymnastics Hall Upgrade	The proposed project is aimed to reduce the heat experienced in the gymnastic hall & provide a safer environment for our members to participate in. This will be achieved by firstly installing a louver system in the current steel sheeted walls to allow cross flow ventilation and reduce heat. Secondly, to replace current light fitting with LED lights to reduce heat caused by light and as a sustainable option. Lastly, to replace the current rusted roof meshing with perforated flashing for safe ventilation and bird proofing.	\$28,312.45
CAP-181-011	QF7 Redland Bay Coast Guard	Ergonomic Fitout of QF07 Crew Facilities	Redesign crew room facilities to provide improved climate control including ergonomic fit out of the Radio Control Room. Includes redesign of room layout and air-conditioning.	\$5,516.00
CAP-181-012	The Rotary Club of Cleveland Inc.	The Cleveland Rotary Sensory Garden : Phase 1	Cleveland Rotary wishes to provide the Redlands Community with an all abilities sensory garden which acknowledges the contribution of pioneer farming families to our growth and prosperity. In addition the Club wishes to customise the sensory garden design to enhance the experience for people with disabilities and also provide them with a wheelchair accessible market garden. The Club will volunteer its services to design and construct the garden with a focus on positive education, therapeutic and recreational experiences for MyHorizon's disable and disadvantaged service users. This includes the provision of a market garden for their exclusive use. The gardens will be realised over 18 months in 3 phases. Phase 1 will entail concept design and foundation infrastructure construction over 6 month.	\$20,000.00
CAP-181-013	Redland Community Centre Inc.	Communicate with Redlands	The project aims to deliver a new telecommunications system to better serve the people of the Redlands.	\$3,043.06
CAP-181-020	Cerebral Palsy League of Queensland	CPL Capalaba - Access All Areas Project	This Access All Areas project aims to complete a three-component Upgrade Renovation at the CPL Capalaba site to increase wheelchair-access, enhance functionality for application to Life Skills and Independent Living programs, support transition to work opportunities, and increase safety for clients (people with disabilities) and staff onsite.	\$45,600.00
<b>TOTAL</b>				<b>\$152,471.51</b>
