

Community Grants Program - 2018/2019 Round 2 - Project support				
Grant ID	Organisation Name	Project Title	Project Description	Approval Amount
SUCCESSFUL APPLICATIONS				
PS-192-005	Centacare Brisbane South	Redlands Dementia Forum	Due to the success of the Dementia forum held last year we are hoping to expand on this to not only information but also training.	\$6,000.00
PS-192-014	Redland Community Centre	Redlands Integrated Homelessness Response	The Redlands Integrated Homelessness Response (RIHR) project's objectives are to build resilience in our homeless, develop and streamline the community response/pathways and unite services; in doing so develop capacity within Redlands to service our homeless with dignity and respect within a hands up approach. The program has added benefits of educating the broader community on what Redlands homeless actually looks like in addition to advising our community on the best ways to assist this vulnerable group. RIHR will firstly develop a draft framework for the response, given the Centre's long ranging experience in the sector together and with the our pilot program Homeless United, before proactively inviting all homeless service providers, who deliver services in Redlands, to join this specialist network. The main aim of the project is to unite the individual services to deliver a meaningful response to homelessness which is both cost effective and client focused as well as one that our community finds acceptable. Secondary aims of the program are to develop partnerships and collaborations towards development of a RIHR consortium which will enhance funding submissions and reduce fixed costs and duplication of service delivery.	\$10,000.00
TOTAL				\$16,000.00
