

Community Grants Program – Round 1 2019/20 – Capital Infrastructure

Grant ID	Organisation Name	Project Title	Project Description	Approval Amount
SUCCESSFUL APPLICATIONS				
MC-201-001	Queensland Police-Citizens Youth Welfare Association	PCYC Redlands Gymnastics Upgrade	PCYC Redlands is upgrading its Gymnastic space and associated programming in line with community demand and strategic imperatives. This requires the establishment of a space of suitable size and quality to enable expansion of the current Gymnastics program for the community. Funding from the Redlands City Council will allow for the purchase and installation of sprung flooring and landing mats that are required for the additional space to be established as a high quality Gymnastics venue. Additional financial contribution provided by PCYC (and pending, local partners) will enable purchase of the additional Gymnastics equipment needed to complete the upgrade.	\$38,440.00
MC-201-005	Alexandra Hills Men's Shed Inc	Alexandra Hills Men's Shed Facility Extension 2019	We will install a new color-bond 12m x 9m Workshop with internal wall lining and insulation including a mezzanine level. Connect 3-phase power, internal electrical works and a site security system.	\$32,953.00
MC-201-007	Thorneside Community Tennis Courts Association Inc	Thorneside Tennis Courts LED Lighting Upgrade	Thorneside Tennis is seeking to replace the existing halogen floodlights on its four tennis courts with new improved brighter energy efficient long lasting LED lights. This will provide improved lighting and playing conditions, reduce power (electricity) costs and energy consumption (greenhouse emissions), and reduce maintenance charges (costs incurred in replacing floodlights).	\$9,752.00
MC-201-009	CPL - Choice, Passion, Life	CPL Capalaba Access All Areas Project - Phase 3 Laundry Upgrade	CPL seeks a co-funding contribution towards the third phase of the CPL Capalaba facility improvements of our "Access All Areas" project. The works involve the upgrade of the laundry to make this area fully functional and wheelchair accessible for our clients, people with disabilities. Currently, the laundry is unable to be used as part of our Life Skills and Independent Living program as the space is not wheelchair accessible or functionally useable to run a learning program for our clients. The laundry upgrade will improve safety, accessibility and client participation, while allowing for multi-program delivery concurrently, and promoting efficiency, viability, and the benefits of social and peer mentoring components within the program delivery at CPL Capalaba.	\$10,000.00
CAP-201-OOR-001	Alexandra Hills Australian Football Club	Alexandra Hills AFL Ground LED Field Lighting	AHAFC will install new LED fixtures to existing light towers. This will deliver an increase in lux output and better lighting uniformity that is compliant with AFLQ standards for all levels of play. The project will better support training and competition for all players, including the growing number of female players at our club. The lighting required two audits in 2019 to meet AFLQ standards. This urgently needed upgrade will allow AHAFC to continue hosting games in the evening and will support continued participation for all junior male and female teams on Friday and Saturday nights.	\$50,000.00
TOTAL				\$141,145.00
