Project details

(including details as to how the funds were, or are to be, spent)

Redland City Council recently conducted an independent building inspection on the clubhouse building and it was recommended that Point Lookout SLSC engage a Structural Engineer to further investigate identified issues. Our project seeks to appoint a structural engineering firm to inspect and assess existing building cracks due to possible foundation subsidence as well as deterioration of the fencing and veranda beam. The ensuing structural report will include a summary of the investigation as well as recommendations and preliminary repair strategies as required.
